WORK EXPERIENCE

Flutter Developer
Grand Digitals

11/2022 - Present

Achievements/Tasks

- **TRACKING APP**: Designed a Flutter-based car tracking app for SaaS platforms with GPS integration for live tracking, route history, and driving insights and added features like maintenance alerts, geofencing, and fuel tracking, delivering reliable, user-friendly performance.

- **CANNABIS DISPENSARY FINDER APP**: Built a Flutter app for cannabis consumers with geo-fencing to display dispensaries, products, deals, and brands by location, ensured compliance with state regulations, enhancing user experience with personalized, localized content.

- **TRUCK MANAGMENT APP**: Developed a Flutter app for truck drivers with Mapbox integration for real-time navigation, APIs for digital BOL, and lumper management. Reduced paperwork and improved payment workflows. Added multilingual support for broader accessibility.

- **DATA SCRAPING AUTOMATION**: Used Selenium and Beautiful Soup for data scraping and cleaning, ensuring accurate datasets for seamless integration into SaaS platforms—enhanced Flutter apps with dynamic content, personalized experiences, and data-driven functionality.
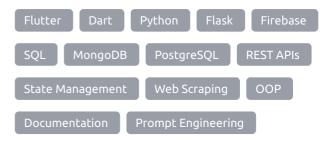

EDUCATION

Bachelors in Computer Science
Ilma University

Intermediate
Govt. Degree Boys College Asifabad

SKILLS

Flutter · Dart · Python · Flask · Firebase · SQL · MongoDB · PostgreSQL · REST APIs · State Management · Web Scraping · OOP · Documentation · Prompt Engineering
